सीएसआईआर-सीईसीआरआई के बारे में /About CSIR-CECRI

CSIR-Central Electrochemical Research Institute (CECRI), a pioneering research institute in the area of electrochemical science and technology, was founded by the great visionary Dr. RM. Alagappa Chettiar in 1948 with the support of Pandit Jawaharlal Nehru and Dr. Shanti Swarup Bhatnagar. CECRI was established as the 12th National laboratory under the Council of Scientific and Industrial Research (CSIR), GoI, New Delhi. The Institute works on a gamut of problems covering all facets of Electrochemical Science and Technology: Corrosion Science and Engineering, Electrochemical Materials Science, Electrochemical Power Sources, Electrochemical Pollution Control, Fundamental Electrochemistry, Electro-Metallurgy, Industrial Metal Finishing and Functional Materials. CSIR-CECRI is the largest research establishment for electrochemistry in Asia. It serves as a launching pad for a multitude of technologies for the India electrochemical industry. Over 750 patents, 250 processes, 600 sponsored and grant-in-aid projects, 450 licensees and 5,500 research & review papers are ample testimony to its leadership in nation building.

विषय और कार्यशाला के बारे में /About the topic and Workshop

CSIR-CECRI is pleased to announce a two days DST-SERB Sponsored up-skilling training workshop on **"Solar Energy Technologies: Fundamentals to Device Fabrication"** during 16th - 17th December 2024. The main objective of this programme is to disseminate knowledge and introduce the principles of solar energy harvesting through photovoltaic technology to young scholars, researchers and faculties. In addition to formal lectures on theoretical fundamental principles of the subjects, there will be an opportunities for the participants to get the hands-on training on to device fabrication, testing and data analysis.

शामिल किए गए विषय /Topics Covered

The main area covered in this programme are:

- ❖ 1st Generation (wafer based crystalline) Solar cell
- ❖ 2nd Generation (thin films) Solar Cells
- ❖ 3rd Generation Solar Cells-Dye – sensitized solar cells, Quantum dot solar cells and Perovskite solar cells
- ❖ Paint formulations for solar cells

Practical classes on

- ❖ Device fabrication
- ❖ J-V curve and EIS measurements of emerging solar cells
- ❖ Stability analysis and Data analysis
- ❖ Paint formulations

पंजीकरण विवरण/Registration Details

| | |
|--------------------------|---|
| Registration fees | <ul style="list-style-type: none">▪ Rs. 1000/- for Researchers/ Professors/Teachers▪ Rs. 700/- for PhD Scholars/ UG Final year/ PG Students |
| Fee payable at | <ul style="list-style-type: none">▪ Name of the Bank : Indian Bank▪ Name of the Account: IRF-CECRI▪ Type of the Accounts: Savings▪ Bank A/c No: 737253625▪ IFSC code: IDBI000A008 |

- ❖ Registration Fee covers two time refreshment in a day and working lunch.
- ❖ Deadline for payment of registration fee is on or before **05.12.2024**.
- ❖ Number of registrations are limited to 25 on first come first served basis.
- ❖ Accommodation will be arranged on twin sharing basis in CECRI on payment basis at the charge of Rs. 600/- (per day/ per person).
- ❖ The Registration Fee is non refundable.
